

Are your employees on Boxwire? Private Feedback . Better Results

Employee feedback is vital to the success of any business. However, employees rarely feel secure enough in their jobs to offer honest, direct feedback to their employers. Boxwire is a **virtual suggestion box**, it allows anonymous feedback to be submitted at any time, by any employee on Boxwire.com or any mobile device. Boxwire receives this information then sends it via email or text directly to their employer... instantaneously. When your employees submit their private, anonymous feedback on Boxwire.com, they're simply helping you answer one simple question, "how can we make this a better workplace?"
